February 5: Chinese New Year

February 9: National Pizza Day

February 14: Valentine's Day

February 14 & 15: Juvenescence Closed for
Professional Development

February 18: Family Day (Closed)

As I mentioned in an earlier email, my wife and I will be expecting our first child sometime within the next month. Once my wife goes into labor I will be away from the program for at least two weeks. At that time, Nazrin will still be here and Lusine will be coming over from our Cranston location to cover for me and help out.

I will keep everyone update as best as I can and I will send pictures as soon as I am able.

It has taken us longer than anticipated to get enough materials together to set up a construction centre in the room. We are slowly getting there, but it is not ready yet. In the interim we have decided to start with a deconstruction centre in February.

We have collected some old and broken electronics that we will be putting out, with some tools, for the children to take apart. If you have any old or broken electronics laying around that the children could take apart, we would love to add them in.

This will be going on for the month of February.

* * *

We are also closer to building in a Junior Leader program. We are going to start getting the older children to do their own planning of activities that they would like to lead as well as building a supply list of what materials they will need to be able to create or lead the activities they have planned.

We are hoping this will get them more involved in the program as well as helping them be positive peer role models for the younger children.
